Steven Walleman

Computer Information Technology Student

steven.walleman.771@my.csun.edu

Computer Information Technology student with hands-on experience building websites, assembling and upgrading PCs, and providing technology and administrative support in a family insurance office.

WORK EXPERIENCE & PROJECTS

Website Developer

2025

Independent Property Website Project

Built a website for a property owner to display property photos and share contact information for questions and booking inquiries.

Project highlights:

- Organized property photos for visitors to explore.
- Made the owner's contact information easy to find.
- Supported direct inquiries and bookings outside third-party rental platforms.

Related technical skills:

- Basic familiarity with PostgreSQL databases and SQL.
- Introductory knowledge of cloud computing and hosting websites on AWS.

Minecraft Mod Developer

2023

Personal Minecraft Mod Project

Created a Minecraft mod as a personal project in 2023.

Worked with JavaScript and developed an understanding of Minecraft physics, connecting programming concepts with how players and objects interact in the game world.

Technical experience:

- Worked with JavaScript to customize gameplay behavior.
- Built familiarity with Minecraft physics and interactions between game elements.
- Applied programming concepts to a hands-on game modification project.

Technology and Administrative Support

2022

Family Insurance Office

Helped configure office equipment and handled routine customer email and payment follow-ups.

Responsibilities:

- Set up computers, printers, and fax machines.
- Organized cables for office equipment.
- Followed up on customer emails and noted overdue payments.

PC Builder

2021

Personal PC Builds and Upgrades

Built PCs and recently upgraded my own system, matching hardware choices to operating system requirements and gaming performance goals.

Technical experience:

- Compared minimum hardware requirements for operating systems and games.
- Selected components for gaming at 1080p, 2K, and 4K resolutions.

EDUCATION

California State University, Northridge
